

PROGRAM

4th MUGEN Annual & Review Meeting

Divani Acropolis Hotel

28-30 January 2008

Athens

Scientific Officer: Dr. Christian Desaintes

Reviewer: Dr. Benedita Rocha

28th January 2008: Integration – Spreading

	Speaker	Title
17:00	George Kollias Fleming	Welcome - Overview of MUGEN NoE
17:05	Dimitris L. Kontoyiannis Fleming	Transgenesis Core
17:15	Francesca Zolezzi Genopolis	Gene Expression Profiling and Data Analysis
17:25	Vassilis Aidinis Fleming	MKE - Relational Databases
17:35	Holly Zheng EBI	Progress Report on the MUGEN Bioinformatics Core and Relational Databases MDE
17:45	Daniel Graf Fleming	Spreading Activities
17:55	Erica Lomnes UNIMIB	ENII-MUGEN PhD Summer School in Advanced Immunology
18:05	Werner Muller HZI	Standardizing mouse phenotyping: Pros and Cons.
18:15	Eleni Douni Fleming	Genotyping Core
18:25	Lefteris Zacharia Biomedcode	Progress on the Establishment of the Preclinical Drug Evaluation Platform
18:35	Eumorphia Remboutsika Fleming	Set-Routes Women in Science (Gender Issues)
19:30	Dinner at the Hotel and / or Free Evening	

29th January 2008: Research

	Speaker	Title
9:30	Jurg Tschopp UNIL	The inflammasome in health and disease
9:50	Cecilia Garlanda HUMANITAS	Role in innate resistance and regulation of inflammation of the soluble pattern recognition receptor PTX3 and of the IL-1/TLR member TIR8/SIGIRR
10:10	Klaus Pfeffer Uni. Dusseldorf	Interferon mediated effector programs in host defense
10:30	Bernard Malissen CNRS	Genetic dissection of skin DC networks and Th2 lymphoproliferative disorders
10:50	Francesca Granucci Uni. Milano	Intercellular and intracellular mechanisms of dendritic cell-mediated NK cell activation
11:10	Break	
11:40	Fabio Grassi IRB	Purinergic control of T cell activation
12:00	James Di Santo IP	Cytokine signaling for T cell homeostasis and differentiation
12:20	Andreas Radbruch DRFZ	Probing the role of T cells in murine models of chronic inflammation
12:40	Dimitris L. Kontoyiannis Fleming	Post-transcriptional control of T-cell responses
13:00	Maries van den Broek Unin. Zurich	Mechanisms of peripheral T cell tolerance
13:20	Lunch	
15:00	George Kollias Fleming	Disease Mechanisms in Chronic Inflammation and Autoimmunity
15:20	Manolis Pasparakis Uni. Koeln	IKK/NF-kappaB signalling in chronic inflammatory disease
15:40	Rikard Holmdahl ULUND	Disease Genetic analysis of chronic inflammatory disorder
16:00	Werner Muller HZI	Probing TH1/TH2/TH17 development in Mouse mutants using Trichuris Muris Challenge
16:20	Break	
16:40	Günter J. Hämmerling DKFZ	Homeostatic control of dendritic cells and Tregs, and consequences for T cell reactivity
17:00	Martijn Nawijn NKI/AvL	Dual role for Pim kinase in Myc driven prostate cancer
17:20	Glauco Tocchini-Valentini CNR-IBC	Archaeaexpress in the elucidation of the genotype-phenotype relation
19:00	Dinner	Meet at the reception of the hotel. Departure for dinner.

30th January 2008: 4th JPA

	Speaker	Title
10:00	Katerina Sakellariou Fleming	Management Presentation
10:10	Antreas Afantitis Fleming	MUGEN's Performance Indicators
10:20	MUGEN Coordination Fleming	4th Joint Program of Activities – Open Discussion - Reviewers Comments - End of the Meeting
